#### 4 Fund transfer:

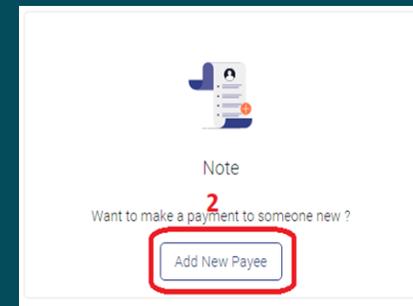

AIB internet banking is the best, easy and secure way to transfer your funds without visiting the branch. You can transfer money to internal accounts (AIB to AIB), own account(between your account in AIB), domestic accounts (AIB to other local Banks) and international accounts . For fund transfer you need to add the accounts as a Payee for all kinds of transfers except your own account transfers.

Please follow the below steps to add payee.

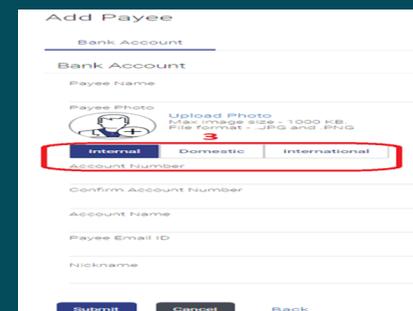

Go the Manage Payee option

Then select the Add New Payee option

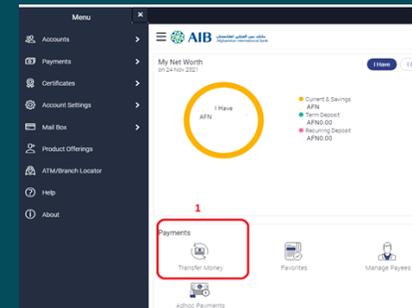

Then select the Payee Type and follow the below steps.

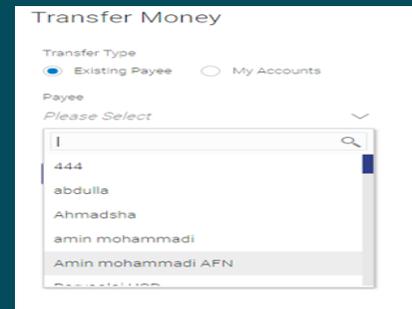

# Please follow the below steps for Fund Transfer

Go to the dashboard and select the Transfer Money option

Select the existing payee and then the payee you want to transfer money for,

### Internal Fund transfer

For Internal Transfers (AIB to AIB Accounts) Select the payee and then the account you want to transfer from (debit Account) then enter the amount you want to be transferred and at the end select the Pay option, you will receive an OTP through your registered email ID the fund will be transferred once you confirm the OTP.

### Domestic Fund Transfer

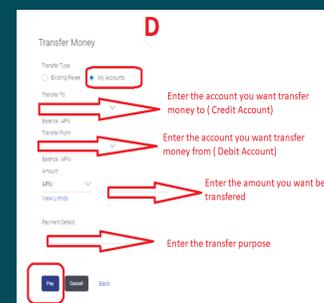

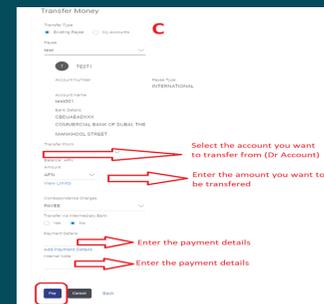

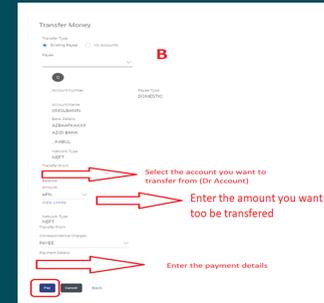

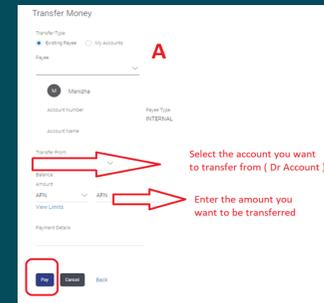

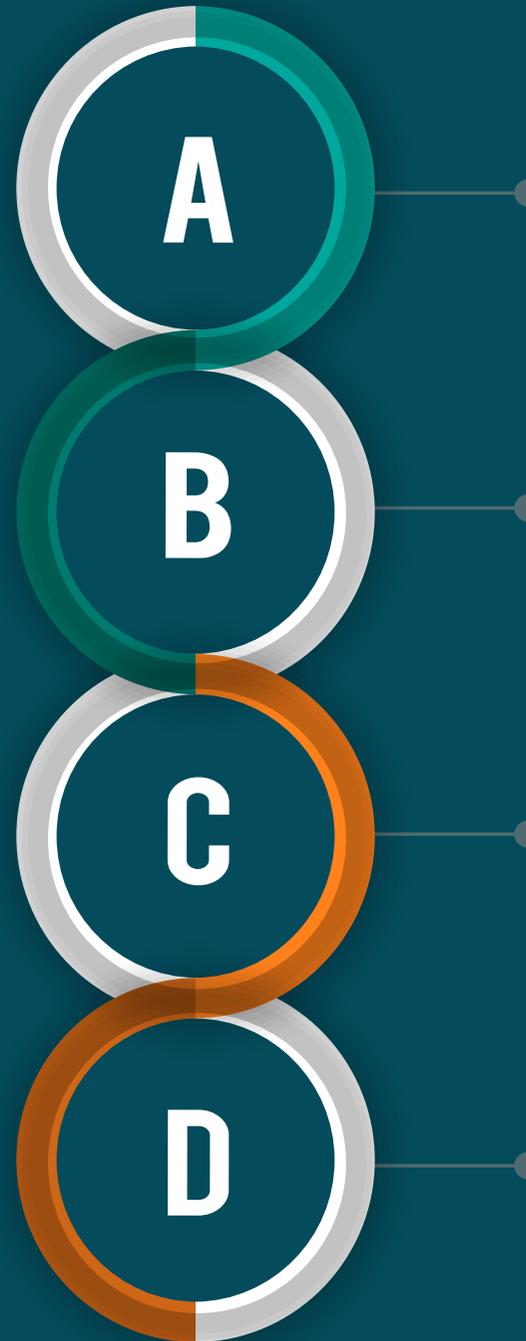

For Domestic transfer (AIB to other local Banks) Select the payee and then the account you want to transfer from (Dr Account) then enter the amount you want to be transferred then the payment details and at the end select the Pay option, you will receive an OTP through your registered email ID the fund will be transferred once you confirm the OTP.

### International Fund transfer

For International transfers (AIB to other International Banks) Select the Payee and then the account you want to transfer from (Dr Account) then enter the amount you want to be transferred and the payment details, also supporting document if any for the payment at the end select the Pay option, you will receive an OTP through your registered email ID the fund will be transferred once you confirm the OTP.

### Own account transfer

For Own Transfer select the money transfer option on the dashboard then select the My Accounts option, select the account to be credited, account to be debited, amount to be transferred, transfer purpose and click the Pay option. After confirming the payment transaction will be completed.

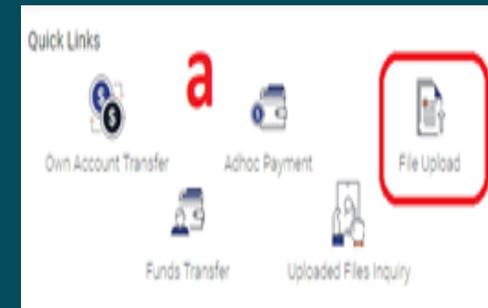

## 5 Bulk Payment:

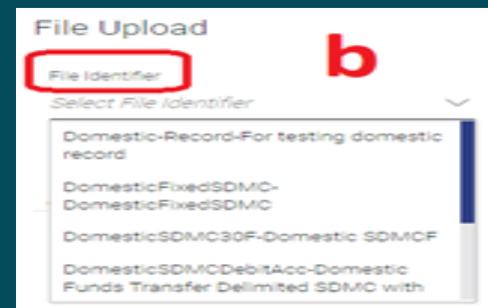

Bulk payments or file upload option in our internet banking, gives you the convenience to perform multiple transfers in single file, with this version of internet banking system we have following file upload types

- Single Debit, Single Credit (SDSC) you can upload your file using this functionality system will book all the entries in sender and receiver accounts individually.
- Single Debit, Multiple Credit (SDMC) This option gives you convenience to upload a file where system will Debit total amount from sender account and credit all beneficiaries individually.
- Multiple Debit, Multiple Credit (MDMC) This option facilitates you to perform transfers from your different accounts and send to your beneficiaries. means in same file you can send the fund from your different accounts.

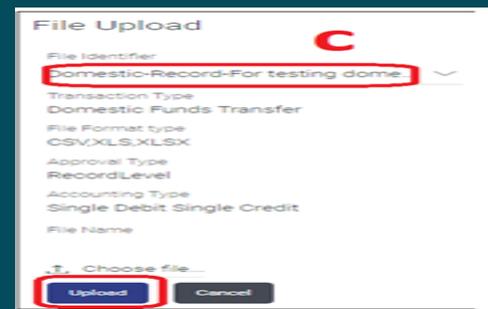

Go to the file upload option on the dashboard

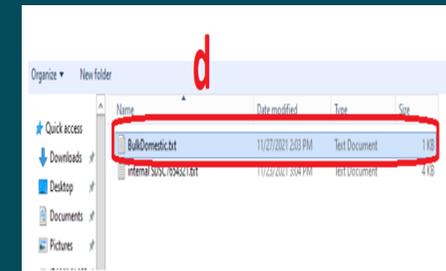

Select the File Identifier option

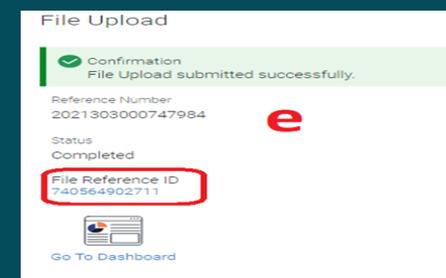

Select the Payee or file then click on Upload

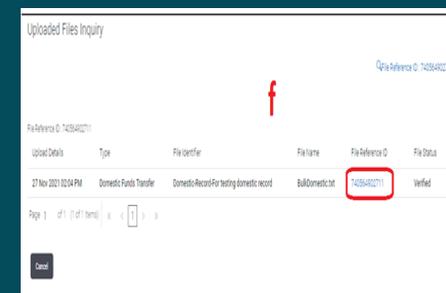

Select the file from your device.

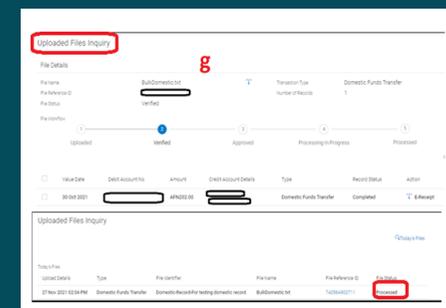

The file will be downloaded and you will see a File Reference ID number.

Go to the Upload Files Inquiry and select the File Reference ID

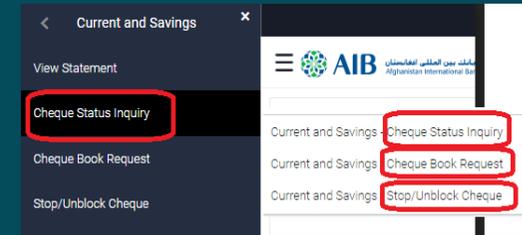

You can check the Bulk Transfers done.
